

## **Public Forum Question and Response**

**Subject:** Disability Access to Warringah Council site

**Question From:** Mr Vincent De Luca

**Meeting Date:** 14 September 2004

### **Question:**

Could Council please assure our community, that whether the Council Chambers remains on the existing site or is relocated that works will be undertaken to ensure that people with a physical disability can access the centre?

### **Response:**

The Administrator advised the meeting that wheelchair access is an issue that will be addressed in the future. If the Civic Centre is moved to a new location, access issues will be addressed in the design of the new building; if Council maintains its location at the Civic Centre options have, and will be, considered as to what can be achieved within the current layout to improve access for those with impaired mobility.
