

Questions from Mr Vincent De Luca

Subject: Development Application #2004-1181 Right of Way over properties
38 and 40 Lady Davidson Circuit, Forestville

Meeting Date: 26 October 2004

Question: I refer to a letter I have received from Mrs Denise Rathgeb. I am informed that Mr Keith Wright of Council attended this site in response to a development application submitted. However, is it possible that a meeting on-site be convened between residents affected by the DA and Council's Assessment Officer for this DA and Council's Engineer, Mr Robert Barbuto.

Response: The Director Planning and Assessment Services advised the meeting that Mr. Wright would be pleased to meet with the relevant residents in this matter. She advised that before he does so he will need further information and clarification as to who owns and who will benefit from the right of way, the history of the original driveway and information on certain structures that appear to be on the right of way. The Director concluded that Mr Wright will require the necessary consents of those parties but by all means agrees to discuss the matter further.
