

Awning Hazzards in Dee Why

Ashleigh Hill asks why there are still awnings in Dee Why which are unstable and leaking
MD 23 February 2012.

I share Ms Hill's concerns, particularly considering the tragic death of Mr Taylor in Balgowlah in 2007. Accordingly I asked Warringah Council's management to investigate.

In relation to 701 Pittwater Road I am advised (answer to Question on Notice - Council Meeting 28.2.12) that the owners of the building have on several occasions provided structural engineering reports to Warringah Council which have stated the awning is in a reasonable structural condition.

On 27 January 2012 a development consent was also granted for the building to be demolished and redeveloped.

Councillor Vincent De Luca OAM
Warringah Councillor for 'A' Ward
