

## **Dee Why Rock Pool**

Recently, I have received several enquiries regarding the water quality and need for repainting of lane markings in Dee Why Rock Pool.

I requested Council Officers to look into the matter, and they have advised that Rock pool cleaning is subject to the tides and seas. If the seas are dangerous cleaning the pool can't be undertaken. However, only once has cleaning not gone ahead at Dee Why this year. Lane marking can only occur when there is dry weather, a clean pool, low seas and hot temperatures. The next attempt to paint the lines will be on 30 March 2012 (back up date Friday 13 April).
