

I refer to the article (MD 31.8.12) concerning the proposed sale by Warringah Council of the Oaks Avenue, Dee Why car park.

Dee Why is chaotic with cars parked clogging the streets.

The Oaks Avenue car park is an essential piece of community land that should not be sold as proposed by Council's current management and Mayor.

We need more car parking, not less.

I have fought for years that the car park be maintained as a community asset and will continue to do so. The Church actually donated the land to Warringah Council for community use, it is immoral to sell it to developers.
