

Re: Julie Whitfield's letter Bigger is Better, the statement that the State Government set the height limits in the Dee Why Town Centre is factually incorrect.

Warringah Council resolved to have those height limits in the Town Centre.

Furthermore, it was Mayor Reagan and Warringah Council who in recent years sought to increase the height limit at the corner of St David's Avenue and Pittwater Road Dee Why for the Jubilee development proposal. Fortunately, the Joint Regional Planning Panel and the Land and Environment Court rejected the proposed height increase stating it was "excessive".

I have always opposed increase in height, bulk and scale because our areas simply does not have the infrastructure to cope with it.

Bigger is not better and developers thrive when local is taken out of local government.
