

Feral Foxes

Further to concerns raised in the Manly Daily about Foxes across the Northern Beaches and the need for eradication, following my raising this issue with Council Staff I confirm Council has culled 50-60 foxes over the last 12 months across the Northern Beaches.

This is coordinated as part of the Urban Feral Animals Action Group which includes 16 Councils, State Government Agencies and the Parks and Wildlife Service.

To report feral foxes please contact Council on 1300 434 434.

Vincent De Luca OAM
Independent Councillor
Northern Beaches Council
